

SOADAN Koffi Sylvain

African Digital Governance & AI Policy

Software engineering · Public law · Political science · Technology diplomacy

Lomé, Togo | sylvainsoadan3@gmail.com | +228 98 55 46 12 | linkedin.com/in/koffi-sylvain-soadan-747572356

01 — PROFESSIONAL PROFILE

African student and early-career professional concurrently pursuing software engineering and information systems (IAI-Togo), public law (University of Lomé) and political science (University of Kara). My work focuses on AI governance, digital sovereignty, data governance and technology diplomacy in Africa. It takes the form of documented projects: specifications, prototypes, analysis notes and code.

02 — EDUCATION

Software Engineering & Information Systems — 2nd year	African Institute of Computer Science (IAI-Togo)	2025 — Present
Public Law	University of Lomé — Faculty of Law	2026 — Present
Political Science	University of Kara	Ongoing
Scientific Baccalaureate C4	Secondary education — Togo	2024 — 2025

03 — EXPERIENCE & LEADERSHIP

iBase — Togo

Programming, AI & Cybersecurity Instructor · Current

Mentoring young learners in programming, AI and cybersecurity.

MoNaJeL Togo

General Advisor · 2026 — Present

Supporting youth initiatives, international cooperation and leadership.

Promoting student projects, programming and technical workshops.

Student network supported by the U.S. Embassy

Student Delegate & Group Administrator · 2026 — Present

Coordinating information and digital activities.

Lycée Agoè-Centre — Togo

Student Leader & Science, Health, Environment Clubs · 2023 — 2025

Scientific leadership, health and environment; Arduino/robotics activities.

Togolese Red Cross Society

Volunteer & First Aider · 2022 — Present

Volunteering and first-aid training.

UN Volunteers — United Nations

Online Volunteering · Volunteering

Communication and awareness on neglected tropical diseases (Guinea-Conakry).

04 — EXPERTISE

Software & data engineering

Python, PHP, HTML/CSS, JavaScript, Java, C, C#, C++, SQL; Django, React, Arduino; Pandas, NumPy, Power BI; relational modelling.

Systems & cybersecurity

Linux/Unix, Cisco, Packet Tracer, networking (TCP/IP); operational cybersecurity and applied cryptography fundamentals.

AI governance & public law

Algorithmic auditing, bias assessment (DIR), AI passports, AU strategy compliance; constitutional and administrative law, Malabo Convention.

Diplomacy & international affairs

International relations, digital diplomacy, Agenda 2063, multilateral negotiations.

05 — PROJECTS

BITC — Blue Intelligence Technologies Corporation	Prototype	Framework for auditing and documenting AI systems in public services.
African Health OS	Concept	Health digital public infrastructure (HL7/FHIR, cryptographic ledger).
4 Voix Jeunesse Togo	Concept	Civic urban reporting platform (Geohash spatial privacy).
Togolese Youth Tribune — TJT	Development	Media and podcast on society, justice, governance and youth.
African Youth & Diplomacy — JDA	Research	Preparation for technical diplomacy and multilateral negotiations.
African Digital Sovereignty Observatory	Research	Comparative research on African digital sovereignty.

06 — RESEARCH & PUBLICATIONS

Policy Brief #01 — AI Governance in Africa

SKS Policy Notes & Analysis, Note no. 01, 2026.

Policy Brief #02 — Cybersecurity as Foreign Policy in Africa

SKS Policy Notes & Analysis, Note no. 02, 2026.

Digital public infrastructure & fundamental rights

Research in Development.

07 — CERTIFICATIONS

UNV eCampus — BSAFE Security · UNDSS, United Nations

Cybercrime & International Norms · UNODC / SPARK

CCNA 1 — Introduction to Networks · Cisco Networking
